EXPERIENCE

KPMG

Data Analytics Intern

May 2023 – Nov 2023

- Part of the pioneer batch of 20 students within the cohort for a SMU-Google-KPMG initiative
- **Main Project:** Automate the collection and analysis of deals for the Deal Intelligence department
- Created a simple web page which is integrated with Google's BigQuery
- Created LLM models involving Google's Vertex AI to classify and summarize deals
- Created web scrapers to scrape S&P's CapitalIQ and Orbis for company financials
- Automated the Asset Pack (slides) creation process based on information collected

The Digital Spacee

Frontend Web Developer Intern

May 2022 – Aug 2022

- Created SOP / checklists / UAT template generation process for sanity testing
- Created scripts, tested, and developed software for client applications
- Utilised source debuggers to write or modify client software to ensure smooth operations of web processes and infrastructure
- Platforms used: Laravel, React, WordPress, Bubble.io
- Languages used: PHP, CSS, MySQL, JavaScript

Netpluz Asia

IT Operations Intern

Feb 2021 - Jun 2021

- Handled 1-on-1 customer relations between CTOs/IT Managers and telecommunications companies (SingTel, SPTel, Starhub)
- Assisted in the network and telecommunications delivery for multiple companies (E.g., Paradise Group, Zouk, Kin Teck Tong, Daikin, Goldbell)
- Handled and modified DNS server rights and implementation for related companies
- Spearheaded the process of **documentation and SOP** for the Service Delivery and IT Operations departments so that new Service Delivery and IT Operations Executives can adapt faster to work-related lingos and conditions
